

Diane, Plainville

"I learned the hard way how easily I could have lost my Section 8 housing. I shudder to think where I would be without the intervention of CLRP."

Phyllis, Bridgeport

"After struggling to find a place for eight months, after CLRP got involved, they secured a new unit for me in a few weeks. I can finally move on with my life. If it was not for CLRP, I would now be facing possible homelessness."

Chris, Danbury

"I am trying to get back on my feet while working part time and getting treatment. I didn't know my rights. My notice to quit said I had to vacate my apartment before Thanksgiving and if it wasn't for CLRP, I would have. Who knows where I would be now without the supportive housing I rely on. Luckily I found CLRP. I have been able to remain in my housing."

Angela, Plainville

"There is a need for housing help. Without them, I would be lost. They were able to get the proper documents which I had been denied. I know without their help I would still be in anguish. When I was ignored for months, they were able to advocate for me. Their agency's paralegals and attorneys are serious about protecting our rights. CLRP is an asset to have in the community. With their help we can work through problems and not work around them."

John, New London

"My belongings were destroyed in a fire. When I left the burning building, my therapist at SMHA suggested that I contact CLRP. CLRP advocated for three other residents of my apartment. They also got their belongings back and it was a big relief to us. Without CLRP's assistance, I would not have been able to replace all the needed items that were lost in the fire. I was pretty desperate but CLRP stepped in and did good work on my behalf."

Helena, Newington

"My son would be homeless today were it not for the legal representation he received from CLRP. These people are experienced in the courts unlike people with mental health issues and they have remarkable ability to explain legal terms in a way that clients and their families understand."

#WhatHousingMeansToMe

Carol, Waterbury

"If I didn't have CLRP, I'd probably end up in a shelter or homeless."
